

Corporate Workshops

2021 Virtual Events

During your seminar, Dr. Elizabeth Milovidov, will provide your employees with practical strategies and best practices to support their families in the digital age. Dr. Milovidov brings 10 years of experience in the online safety world based on her consulting practice with governments, educational institutions, parent associations and of course, with the children themselves.

Workshop Goals

As parents and caregivers, we understand that we can never protect our children 100%, in every circumstance, at all times. But we can learn as much as we can about implementing safety measures and cultivating positive communication with our children in order to protect them.

- Get empowered with confidence, communication, and critical thinking skills to raise digital children.
- Enjoy a balanced view of the risks and benefits of the digital world for our children in relation to the topic at hand.
- Discover the wide range of benefits that children can reap from the online world once you have established balance and boundaries.
- Realize the importance of preparing responsible digital citizens of tomorrow.

Workshop Details

- The Digital Parenting workshop is a 45-90 minute informational seminar on the latest in online safety and digital parenting.
- The workshop consists of a 20-30 minute presentation followed by interactive discussion.
- Tailor the content to your needs. In addition to making sure the workshop is relevant to the age of the children of the participants, the actual topic can be:
 - Selected from a proposed list or
 - Decided after surveying the participants.
